# Key Achievements

## Member Network & Partnerships

Partnered with the Louisiana Rural Health Association for Rural Health Care Coordination grant

Welcomed CommuniHealth Services to the network

Exploring social service data sharing partnership with Louisiana WIC

## Product Development & Technical Operations

Activated Opelousas General Health System's hospital data

Added UDS visit dashboard to aid reporting requirements

Added Medicaid eligibility data to MCO attribution report

## Sustainability & Network Value

Partnered with LA Dept. of Health & LaHIE to align state HIT infrastructure through the Orchestrator Model

Launched the PeLEX brand

Participated in LPCA and Civitas conferences

# Upcoming Priorities

## Fortify state partnerships

Pursue additional CEAs with the Louisiana Dept. of Health

Formalize partnerships with MCO partners for quality improvement

Acquire statewide hospital data through LaHIE integration

Expand HIE access to rural health providers through LRHA

## Double down on existing services

Integrate more detailed data into existing services

Refocus on behavioral health services with HHS final rule

Engage CHW user groups and SDoH dataflow

Create pathway for scaling FHIR-enabled services

## Explore emerging use cases

Work on electronic clinical quality measures (eCQM)

Pursue HITRUST certification

Monitor API requirement for CMS final rule

Increase publication and analytical studies

# Data Quality is Care Quality

DePaul Community Health Centers*

Moderated by  
Tom Carton

**BREAK**

Back in 10 minutes

# Product Opportunities

Van Le

Program Manager, PelEX

# Bases of Data

## Clinical

- ◆ Diagnosis
- ◆ Problem
- ◆ Allergies
- ◆ Labs
- ◆ Vaccination
- ◆ Medication

## Hospital

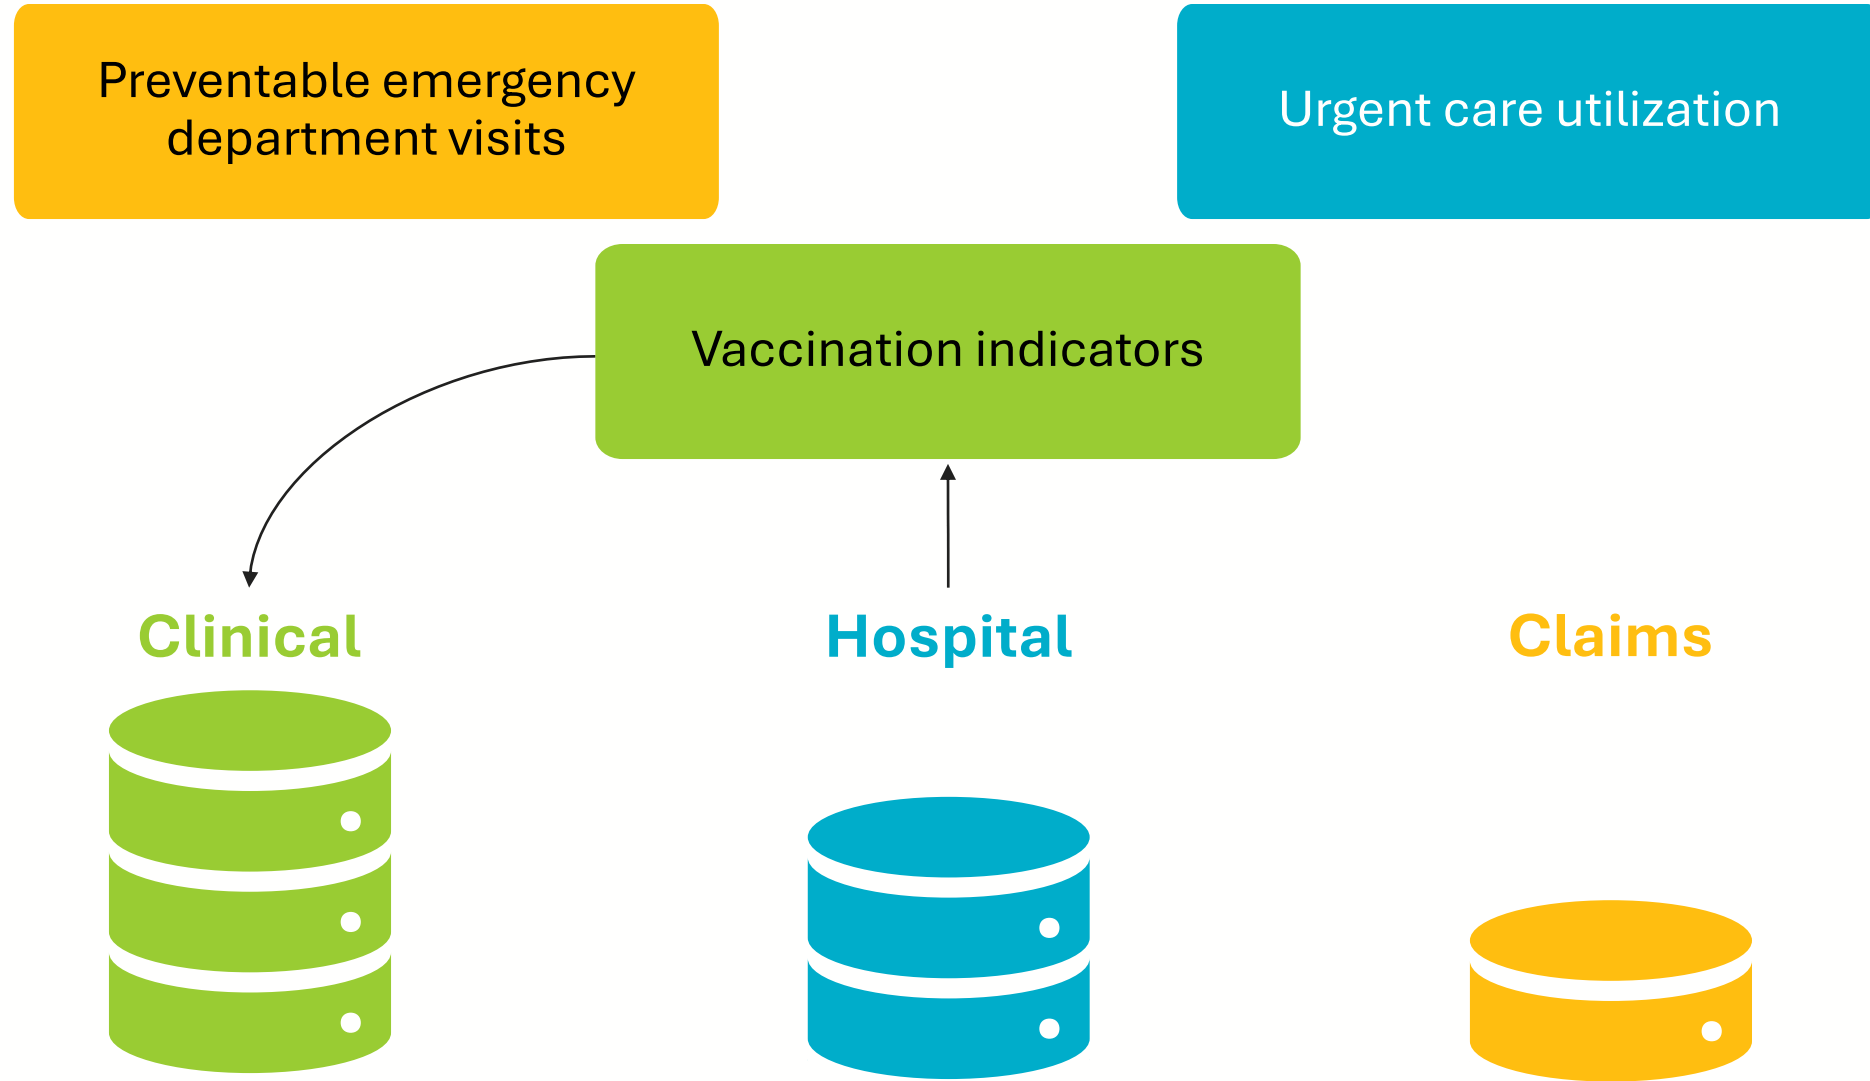

- ◆ Diagnosis
- ◆ Procedure
- ◆ Allergies

## Claims

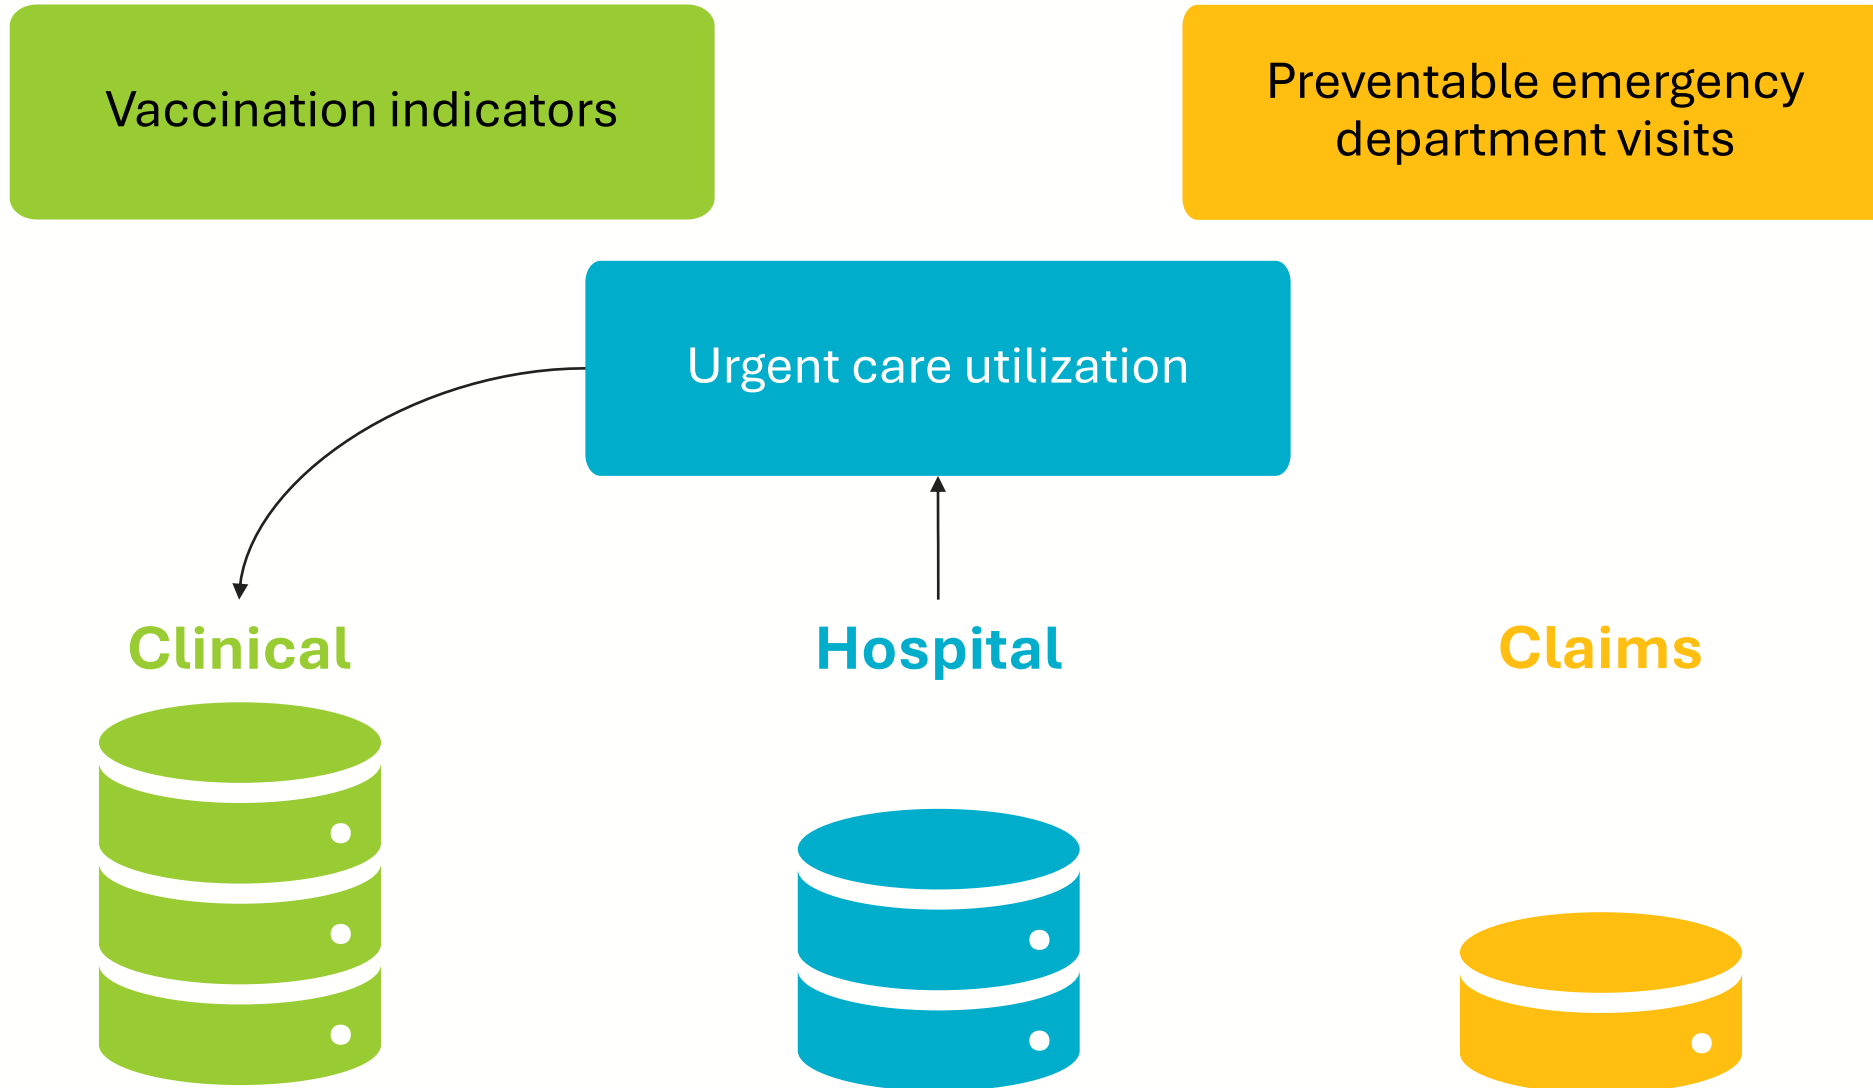

- ◆ Diagnosis
- ◆ Procedure
- ◆ Insurance

# Product Opportunities

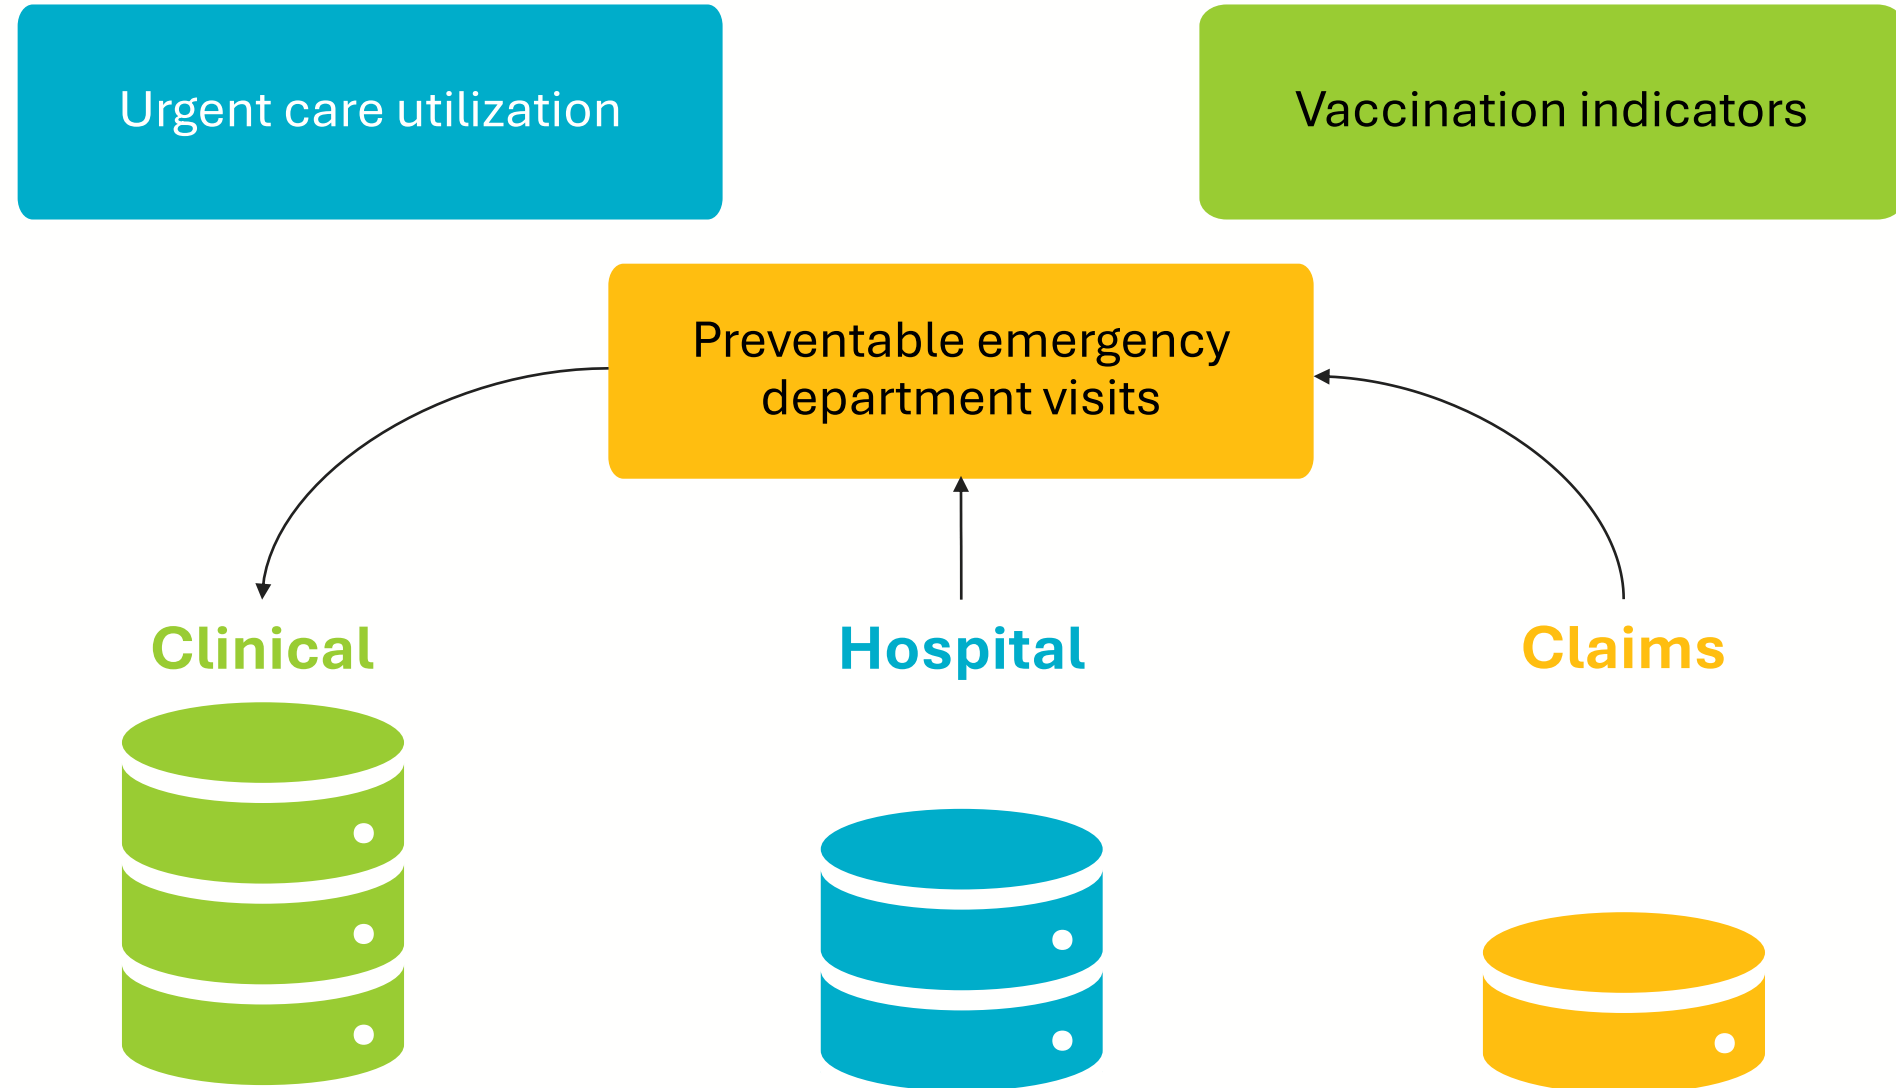

# Product Opportunities

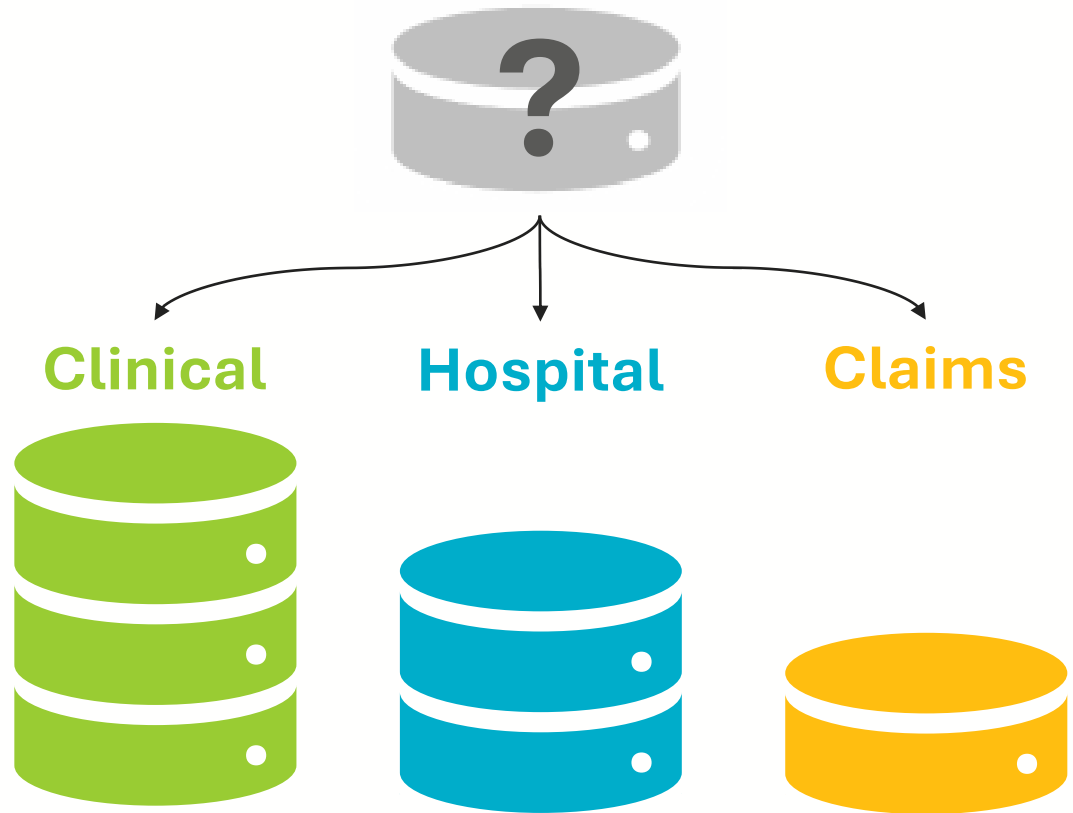

# Product Opportunities

# Product Opportunities

Vaccination indicators

Urgent care utilization

Preventable emergency  
department visits

Other product idea

# Product Idea Jam

## Brainstorming

5 minutes

“Silent” activity to generate product ideas

## Mapping Exercise

25 minutes

Group discussion to map ideas on a priority chart

## Report Outs

15 minutes

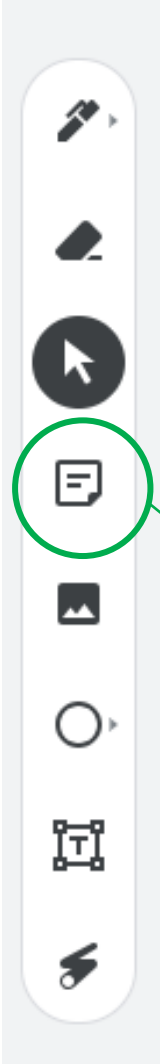

Sharing priority products to the broader group

1. Navigate to your group

Link to the Jamboard is in the attendee guides!

2. Create sticky notes here

2024 PelEX Member Event

Set background | Clear frame

### Red Team: Tom & Hua

**Part 1: Individual Activity**  
Based on the opportunities identified by PelEX, come up with 5 ideas for what and how data can be used by your organization to improve healthcare quality.

**Part 2: Group Activity**  
Within your group, discuss and identify your top products from Part 1. Using the Jamboard, place them on the Importance-Urgency chart below.

High Importance  
How impactful is it to have this?

High Urgency  
How immediate is your need?

# Report Outs

Please remember to mute your microphone as you return from breakouts

Share the products you prioritized on your  
[Jamboard](#)

# Pulse Poll

Did you learn something exciting from today's event and activities?

Reminder

# Annual Engagement Meetings

## Purpose

- ◆ Strategic planning
- ◆ Your time to tell us your needs
- ◆ Handle administrative business

# After the Event

- ◆ Complete the [Post-Event Survey](#)  
(found in the attendee guide and in chat)
- ◆ Keep an eye out for materials
